PROMOTIONAL PARTNERS
Welcome to the 16th Annual Energy Conference

We want to thank:

**Platinum sponsors:** BP/IGI and Calpine Energy Solutions
**Gold sponsors:** United Energy Trading, LLC.
**Silver sponsors:** Cost Management Services, Cable Huston, Davison Van Cleve PC, Northwest Innovation Works, PacifiCorp, Rosen, Shell Energy North America and Stoel Rives, LLP.
**Bronze sponsors:** Black & Veatch, Energy Strategies, Jordan Cove, NIPPC and PGE.
**Promotional Partners:** COGA and Energy Newsdata

... along with all of our speakers and organizations that make this conference possible.

Presentations will be made available online at [www.nwga.org](http://www.nwga.org) following the conference (contingent on speaker permission). Attendees can receive immediate access to presentations on the post-conference web page by responding to the survey emailed to them after the conference. The post-conference web page will be made available to the general public on Monday, June 17.

Please fill out your conference evaluation; it is extremely important to us. We will email you the link at the end of the conference. All respondents will be entered into a drawing for an $50 Amazon gift card.

Adjourn
Alex Epstein is the author of the New York Times best-selling book, *The Moral Case for Fossil Fuels*, and an expert on energy and industrial policy. Called the “most original thinker of the year” by political commentator John McLaughlin, he champions the use of fossil fuels like coal, oil, and natural gas and has changed the way thousands of people think about energy. He has risen to prominence as the nation’s leading free-market energy debater, promoting a philosophy that is “antipollution but pro-development.” He believes that fossil fuels are about maximizing human progress and improving people’s lives, and he challenges many popularly held ideas about energy, industry, and the environment, including the big picture benefits (and costs) of fossil fuels and nuclear power.

Epstein draws on cutting-edge research and original insights to offer an alternate perspective on the energy debate and shares eye-opening thoughts into how fossil fuels and technology will improve the lives of people—safely, cleanly, and effectively—for years to come.

In his best-selling book, Epstein argues that fossil fuels, despite popular perception, have improved every measure of human well-being, from life expectancy to clean water. Believing that the public only hears one side of the story, he discusses how we are programmed to only concentrate on the risks and side effects of fossil fuels rather than their unique ability to provide cheap, reliable energy to a world of seven billion people, most of whom are in developing countries and have no access to alternatives.

Dena E. Wiggins is President and CEO of the Natural Gas Supply Association (NGSA), representing major integrated and independent natural gas producers in the U.S. Wiggins became President and CEO of NGSA in 2014. Previous to NGSA, she was a partner at the firm of Ballard Spahr and served as general counsel to the Process Gas Consumers Group, a trade association of industrial natural gas consumers.

As President of NGSA, she leads the association’s efforts to encourage the supply and use of natural gas. She promotes the benefits of competitive markets to ensure reliable and efficient supply, transportation and delivery of natural gas.

Wiggins has over 25 years of experience representing energy clients, with a focus on federal regulatory matters including natural gas transportation and storage. Wiggins has been involved in all of the Federal Energy Regulatory Commission’s significant natural gas rulemakings in the past 20 years, including the restructuring of the natural gas industry through Order Nos. 436, 636, and 637. She also has been involved in high-profile legislation such as the Energy Policy Acts of 1992 and 2005, the decontrol of wellhead prices of natural gas, and the repeal of the Fuel Use Act, as well as efforts to increase energy exploration and production.

She holds a BA degree from the University of Richmond and a Juris Doctor from Georgetown University Law Center.

Dr. Amy Snover connects science and decision-making to tackle today’s pressing environmental challenges of the Northwest as Director of the University of Washington Climate Impacts Group, University Director of Northwest Climate Adaptation Science Center and Affiliate Associate Professor in the UW School of Marine and Environmental Affairs. She leads innovative efforts to link climate impacts and adaptation science with on-the-ground needs of resource managers, planners and policymakers in order to improve management of the climate risks facing the people, communities, and ecosystems of the Pacific Northwest. Dr. Snover works with a broad range of decision-makers to develop science-based climate risk management strategies, identify research priorities and build capacity for improving climate resilience. She was recognized as a White House Champion of Change for Climate Education and Literacy in 2015 and served as co-convening lead author for the Third U.S. National Climate Assessment and lead author of the ground-breaking 2007 guidebook, Preparing for Climate Change: A Guidebook for Local, Regional, and State Governments. Current areas of focus include defining successful climate change adaptation and identifying the time of emergence of management-relevant aspects of climate change. Dr. Snover has a BA in chemistry magna cum laude from Carleton College and a PhD in analytical/environmental chemistry from the University of Washington.

David Danner was appointed chairman of the Washington Utilities and Transportation Commission in February 2013 and re-appointed to a second term in December 2018.

Danner had been the commission’s executive director since 2005 and secretary since 2008. Before that, he served as executive policy advisor to Washington Gov. Gary Locke on energy, telecommunications, finance and elections issues. In 2004, Danner was named to the state Pollution Control Hearings Board and Shoreline Hearings Board, where he served before moving to the commission.

Danner has also been a telecommunications attorney in private practice, counsel to the Washington Senate Energy and Utilities Committee, and senior policy advisor at the Washington State Department of Information Services.

Danner serves on the Board of Directors of the National Association of Regulatory Utility Commissioners (NARUC), and chairs its Committee on International Relations. He is a member of the State Technology Services Board, the Board of Directors of the National Regulatory Research Institute (NRRI), and the Executive Council of the National Council on Energy Policy. He also serves on advisory boards of the Critical Consumer Issues Forum, the Center for Public Utilities at the New Mexico State University College of Business, and the Technology Law and Public Policy Clinic at the University of Washington Law School. Danner has a BA from Columbia University, an MA in communications from the University of Washington, and a law degree from George Washington University.
